Overview

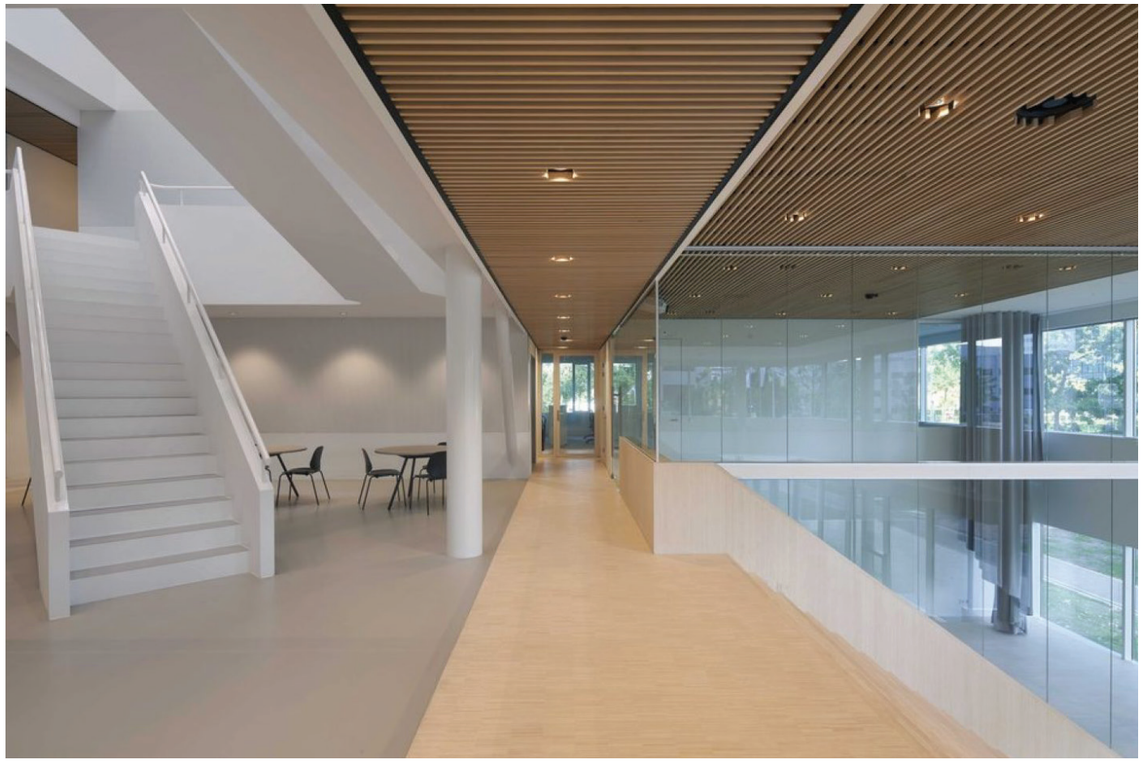

Our Harmony Modular panel system is quick and simple to install and can complement a wide range of rooms. Fixing methods allow for fixed and demountable systems to be integrated into the product. Ceiling panels are installed onto a T24/T15 black ceiling grid.

The nature of the product allows slats to be set out around the services, if required and co-ordination to integrate, light fixture, sprinklers, access panels etc.

Quick and easy access for maintenance of services within the ceiling void. Wall panels are fixed via a black headed screw through the black timber cross-ties into battening behind.

- Class A acoustic performance
- Timber slatted wall & ceiling panels
- Quick & Easy access for future maintenance
- Lay-in grid modular ceiling panels
